

POLICY ENHANCED NURSING SUPPORT

1. INTRODUCTION

1.1 The Trust aims to ensure that all patients receive high quality nursing care, provided in a way that suits our patient's needs. Some patients require more than general nursing observation, often with the primary aim of reducing risk and protecting the patient and on occasions other patients e.g. increased confusion, agitation, high risk of falling and sustaining an injury.

The policy provides information for staff on the Enhanced Nurse Support team in the adult in-patient areas which will supplement the current nursing care given to patients with a wide variety of medical conditions such has dementia, delirium and frailty. The Enhanced Nursing Support team will allow for a consistent process to be put in place to enhance the safety of the patient whilst simultaneously providing interventions to minimise distress or risk of harms caused by being within a hospital environment.

2. POLICY STATEMENT

- 2.1 The management of this process will be the responsibility of the Older Persons Matron, supported by the Older Persons Care Team.
- 2.2 The purpose of this policy is to ensure that all staff follow the correct procedure in order to assess, escalate and care for patients who require enhanced support.
- 2.3 This policy is aligned with the Trust's Proud to CARE values (Compassion, Achievement, Relationships, Environment). Further information on the Trust's values is available on the intranet.

3. **DEFINITIONS**

- 3.1 For the purpose of this policy the term "Enhanced Nursing Support" will be defined as increased care delivery to patients with a wide variety of medical conditions such has dementia, delirium and frailty.
- 3.2 The "Increased Nursing Supervision Care Bundle" is the nursing documentation package which is completed to assess, plan and evaluate the patients requiring enhanced support and to monitor and evaluate the patient's behaviour.

4. PROCEDURE

- 4.1 The Standard Operating Procedure (SOP) should be followed as per Appendix 1 for any patient who has been identified as requiring Enhanced Nursing Support for whatever reason. The SOP includes the following information:
 - Clear identification for when a member of the team is required
 - How to request a member of the team
 - An understanding of the Enhanced Nursing Support teams role and responsibilities
 - The clinical area requesting the support of the Team to understand their responsibilities to the team member.

5. ROLES AND RESPONSIBILITIES

- 5.1 It is the ward Nurse in Charge along with the nurse caring for the patients responsibility to identify when a patient in the ward area may require enhanced nursing support and to implement the SOP accordingly in the first instance.
- 5.2 The Older Persons Matron, once contacted by the ward team, will allocate a member of the Enhanced Nursing Support team to the requesting ward subject to the highest clinical need, patient safety and staff availability.
- 5.3 Once allocated to the appropriate patient(s) the Enhanced Nursing Support team worker will follow the advice and guidance as detailed in the SOP.
- 5.4 The ward staff will continue to support the Enhanced Nursing Support team worker within the ward area in accordance with the SOP.
- 5.5 The Older Persons Care Team will review the patients who are receiving Enhanced Nursing Support on a daily basis and allocate/reallocate staff according to need. Ongoing support to the ward team will also be provided by the Older Persons Care Team within normal working hours. It is expected that the member of the Enhanced Nursing Support team will work as an integral part of the ward team for the duration of their shift, interacting and helping existing ward staff to develop their skills re caring for patients supported by the team
- 5.6 If an agreement cannot be reached regarding the requirement for the Enhanced Nursing Support team, then the Senior Matron must be contacted for further guidance.
- 5.7 Out of hours the Clinical Operations Matron should be contacted and the same assessment as outlined in the SOP should be followed.
- 5.8 Appropriate documentation must be completed as per the Increased Nursing Supervision Care Bundle (appendix 2).
- 5.9 If following a review by the Older Persons Care Team, a member of the Enhanced Nursing Support team is unavailable, then the ward staff must escalate to the relevant Senior Matron for further advice/support.

6. TRAINING REQUIREMENTS

6.1 There is no specific training required regarding this policy but it is expected that all qualified and unqualified nursing staff will be informed of this policy on induction to the Trust. It is also expected that individual ward Matrons will ensure existing staff within their own areas are fully conversant with the policy and associated documentation. Please also see Appendix 3 regarding the training and education plan re the Enhanced Nursing Support team.

7. MONITORING

- 7.1 The Older Persons Care Team along with the relevant Heads of Nursing and Deputy Director of Patient Care will monitor the effectiveness of the policy, any issues identified will be reviewed with the appropriate staff and any action necessary will be agreed upon.
- 7.2 The evaluation framework developed will review the following outcomes:
 - a) Reduction in falls no harm/harm, with no falls when patients are be cared for by enhanced support team
 - b) Reduction in the number of requirements for enhanced nursing support and reduction in unfilled shifts
 - c) Positive impact on staff, patient/carers experience
 - d) Staff well-being

First issued: February 2016

Version no: 1.0

Date issued: February 2016

Review date: February 2018

For review by: Deputy Director of Nursing and Head of Nursing Surgical Division

Director responsible: Director of Nursing and Patient Care

Please complete the following when screening your policy for potential impact on equality groups.

1. Name of lead	Bridget O Hagen
2. Directorate/ Department	Corporate Services
3. Name of policy	Increased Nursing Supervision-Enhanced support Team
4. Is this a new or existing policy?	New
5. Target audience	All NHS clinical staff
e.g. patients and public; NHS staff; professional health organisations; voluntary organisation; internal staff	
6. What are the aims of the policy?	To provide guidance on the implementation of Enhanced support
7. Does any part of this policy have a positive impact on our duty to promote good race relations, eliminate discrimination and promote equality based on a person's age, disability, ethnic origin, gender, religion/belief or sexual orientation? If No, please provide brief reasons.	yes
8. Could any part of this policy have an adverse impact on our duty to promote good race relations eliminate discrimination and promote equality based on a person's age, disability, ethnic origin, gender, religion/belief or sexual orientation? If No, please provide brief reasons.	No, this policy is designed to support all staff and patients who are required to use refer to this policy
9. Are there any factors that could lead to differential take-up, outcomes or satisfaction levels based on people's age, disability, ethnic origin, gender, religion/belief or sexual orientation? If No, please provide brief reasons.	No

STANDARD OPERATING PROCEDURE FOR THE ENHANCED NURSING SUPPORT TEAM

Title Role

Objective

The aim of the Standard Operating Procedure (SOP) is to provide staff with clear steps when requiring a member of the Enhanced Nurse Support Team to nurse a patient within their clinical area.

Overall Aim

To provide a service to the inpatient areas that will support the current nursing care given and being able to provide enhanced support to patients with a wide variety of medical conditions such has Dementia, Delirium and frailty. The Enhanced Nursing Support team will help to ensure the safety of the patient whilst simultaneously providing interventions to minimise distress or risk of harms caused by being within a hospital environment.

Key principles

SCOPE.

The document is for Chesterfield Royal Hospital NHS Foundation trust, (CRHFT)

OBJECTIVES.

The objectives of the SOP are to ensure that CRHFT has the following:

- 1) Clear identification for when a member of the Enhanced Nursing Support team is required.
- 2) How to request a member of the Enhanced Nursing Support team.
- 3) A Clear understanding of the Enhanced Nursing Support teams roles and responsibilities.
- 4) The clinical area requesting the support of the Enhanced Nursing Support team to understand their responsibilities to the Enhanced Nursing Support team member.

OPERATING PROCEDURE AND CRITERIA TO REQUEST A MEMBER OF THE ENHANCED NURSING SUPPORT TEAM.

- The Enhanced Nursing Support Policy and increased Nursing Supervision Care Bundle should be followed to determine if a patient requires one to one/one to two/bay observation nursing now called Enhanced Nursing Support.
- If the patient meets the requirements according to the policy and the increased Nursing Supervision Care Bundle, the Older Person Team should be contacted in office hours 7 days a week by phoning ext. 3731, a message can be left or the team can be bleeped on bleep 905 (team) or 764 (Lead Older Persons Matron). If out of hours the Clinical Operations Matron (on site matron) should be contacted on ext. 3555.

- The Older Person Team will provide continuing support and assessment of the continued need for enhanced support on a daily basis.
- The Older Person Team / Clinical Operations Matron / message left should provide information of the requirement (this may be for 1:1, 1:2 or a cohort bay) and include details of the patient or patients, ward, patient names, hospital numbers and date of births. This should also include reasons why the enhanced care is required.

ALLOCATION OF THE ENHANCED NURSING SUPORT TEAM.

- A member from the Older Person Team will attend the ward to review patients who require enhanced support and review with the nurse in charge etc. if required the Senior Matron will attend.
- The Older Person Team will allocate a member of the Enhanced Nursing Support Team to the requesting ward subject to the highest clinical need, patient safety and staff availability.
- If there are more areas requesting a member of the Enhanced Nursing Support Team the Older Person Team will determine who is allocated to which area base on clinical priority. The Older Peoples Team will discuss the need for additional staff to support other patients with the Senior Matron/Head of Nursing and the normal escalation process will be followed.
- The Older Person Team will allocate staff for the 24 hour period including weekends and bank holidays.
- Any unexpected requirements out of hours the on Clinical Operations Matron will determine where the Enhanced Nursing Support team members are placed.

This will be determined by referring to the Enhanced Nursing Supervision Care Bundle documentation, existing risk assessments and assessing the patient clinical need.

 If no enhanced support is required then the Older Person Team / Clinical Operation Matron will assess clinical areas need for extra support or allocate to an area for reminiscence or personal / group activity work.

RESPONSIBILITY OF THE ENHANCED NURSING SUPPORT TEAM MEMBERS

- Introduce themselves to the patient.
- Whilst providing Enhanced Nursing Support for a patient, it is expected that the HCA will undertake individualised essential care for that one patient including washing, dressing, nutritional support and toileting etc.
- They will be expected to take the patients observations and report them to the qualified nurse responsible for the patient.

- They will be expected to talk to and engage the patient being supported providing reassurance, orientation and providing therapeutic interventions such as walking, reading or activities of an interest to the individual being supported.
- They will liaise with relatives/carers involving them in the care and support needs of the patient; this will include completion of the 'This is me' document if appropriate.
- They will liaise with MDT members informing them of relevant care needs or concerns. They must communicate with the qualified nurse responsible on a regular basis identifying any change in behaviour or concerns and must seek help or advice if felt needed.
- The enhanced care team member will complete a handover delegation record in agreement with the qualified nurse responsible for the patient of any significant care needs/changes/triggers and complete a full verbal handover to the person taking over the care; this should be confirmed by the qualified nurse responsible.
- If the patient is transferred to another clinical area the enhanced care team member will follow them on that journey to provide consistency of care, using the SBAR tool.
- The Enhanced Nursing Care team members' should not leave the patient, they should follow the agreed level of support required unless they are relieved by a dedicated staff member, e.g. break, change of staff.
- To provide a level of support that would be beneficial to the individual which may not be common ward practice; this may be playing a game, going outside or listening to music.
- Complete the Increased Nursing Supervision Care Bundle documentation; this must be a minimum of hourly recording care given, activities performed and relevant behaviours demonstrated.
- The team member may be providing support for 1:1, 2:1 or a cohort of patients.
- The enhanced support team member should be aware of the care needs of their environment; this may involve interaction and support of other patients within their local environment but always under the guidance of the gualified nurse.

THE CLINICAL AREA ROLE AND RESPONSIBILITIES TOWARDS THE ENHANCED NURSING CARE TEAM MEMBER.

- The clinical area should welcome and greet the Enhanced Nursing Support team member.
- The Enhanced Nursing Support team member should receive a verbal handover from the appropriate qualified nurse with any significant care needs discussed, any care goals or changes of behaviour.

- The Enhanced Nursing Support team member should receive the clinical areas support and assistance in the delivery of the enhanced support.
- The clinical area should plan and involve the Enhanced Nursing Support team member with relief; to allow breaks, allow rotation of permanent staff if required and handover/changes of personnel within the enhanced support team.
- The Multi-disciplinary team (MDT) should communicate any changes in proposed care delivery to the Enhanced Support team member immediately.
- THE QUALIFIED NURSE ALLOCATED TO THE PATIENT IS RESPONSIBLE FOR ALL CARE DELIVERY, CARE NEEDS AND CARE PLANNING OF THE PATIENT.
 THE ENHANCED SUPPORT TEAM WILL WORK USING THEIR ENHANCED SUPPORT TRAINING AND BEST PRACTICE PRINCIPLES BUT UNDER THE GUIDANCE OF THE RESPONSIBLE QUALIFIED NURSE.

EDUCATION, TRAINING AND SUPPORT FOR THE ENHANCED NURSING SUPPORT TEAM

Title	Role
Objective	To provide bespoke ongoing high quality education, training and support.
Overall Aim	To improve the skills, knowledge and capability of the Enhanced Nursing Support team (ENST) to operate safely and effectively in this complex nursing intervention within CRHFT.
Key principles	To assess the knowledge and the skill level of the Health Care Assistant HCA with regards to their abilities around the care of the person with Dementia, Delirium and frailty, their communication techniques and inter personal skills.
	To provide an ongoing but bespoke level of training; the training will encompass mandatory elements but will be flexible to the needs of the individual.
	To provide ongoing support to the ENST members performing this complex and flexible role.
	To show that we are proud to CARE and the ethos is at the heart of everything we do- looking after our patients and our each other.
	ALL HCA's will receive corporate induction training before commencement on the ENST.
	ALL HCA's will commence on the CRHFT Care certificate training this will involve the 15 care certificate standards as per care certificate policy as listed below.
Training options	 Understanding of role. Your personal development Duty of care Equality and diversity Work in a person centred way Communication Privacy and dignity Fluid and nutrition Awareness of mental health, dementia and learning disability. Safeguarding adults safeguarding children Basic life support Health and safety Handling information Infection control. This training is supported by the clinical educator and training practitioners, all HCA are expected to provide reflective accounts of care and involve the completion of competency workbook completion.
	All HCA will continue on to do the QCF level 2 clinical support training unless they already have completed the equivalent qualification, i.e. NVQ level 2.
	All HCA will have a 2 week supernumerary period to allow training for the Enhanced Nursing Care Team role.

Week two:-

All ENST HCA will spend time observing current 1:1 practices within the inpatient areas, this will allow time to reflect on the practices observed and reflecting on how enhanced support could influence the patient's journey.

All ENST HCA will spend time shadowing Older person team members; they will observe assessments completed for people with undiagnosed Dementia or Delirium. They will also be exposed to different communication and de-escalation techniques, the importance of MDT involvement, the support needed for the carer and the value of an early discharge to the patient.

All ENST HCA will spend time with the Mental Health liaison team this will involve time with the Older person service and Alcohol and drug liaison service.

All ENST will spend time with the Dementia lead nurse, the focus being on to see the ME in Dementia, person centred care, the importance of activity and reminiscence therapy and how to think differently in the safe delivery of care to the patient.

All ENST HCA will perform according to the Enhanced Nursing Care team SOP and Policy.

Support

Ongoing support will be provided by the Older Person Care Team / matron with regular shadowing and reviews of practice this will involve monitoring of care standards, standards of practice and documentation completion.

Ongoing support will be provided by the clinical education and training practitioners' following the care certificate standards.

Ongoing support will be provided by the Clinical educators from the Medical and Surgical division.

All ENST HCA will be expected to attend monthly team meetings to discuss the service and any concerns.

All ENST HCA will receive an Appraisal in line with Trust Policy.

Regular team away days will be held to provide reflection, support and any identified developmental team requirement.

Ongoing training.

All ENST HCAs will attend a Nutrition and Hydration study day within 6 months of commencement to enhance the knowledge learnt within the Care certificate session.

All ENST HCAs will attend the Conflict resolution training study day within 6 months of commencement to enhance the knowledge gained within the Care certificate training.

All ENST HCAs will attend the Clinical Holding training study day within 6 months of commencement to enhance the knowledge gained within the Care certificate training.

All ENST HCAs will commence the Best practice in Dementia care Stirling university 6 month course.

Further training will be completed on an individual bespoke basis depending on HCA individual need; this will be reviewed on a regular basis.
